

# 79<sup>th</sup> FIP World Congress of Pharmacy and Pharmaceutical Sciences Abu Dhabi, United Arab Emirates 22-26 September 2019

## New horizons: Navigating winds of change *New technologies, new roles, new opportunities for pharmacy*

Do you want to be inspired to take on new roles and be prepared for success in a world of change? Wherever you practise, FIP can help you stay ahead of the game so that you can provide the best care for patients.

As we develop new skills to manage new technologies such as robotics and the digitalisation of health care, it is important that we do not compromise quality and safety.

Come to the Abu Dhabi congress, which will help you develop the knowledge and attitudes to adapt to emerging new roles through networking with pharmacists and scientists from all areas of practice and from all around the world.

### WELCOME TO ABU DHABI

Abu Dhabi is a modern, cosmopolitan city with an ancient heritage where respect for the past informs the present and shapes the future. There are historic buildings, engaging tours and a packed calendar of events covering the arts, culture, sports and trade. Visitors will encounter a diverse emirate, with deserts, beaches, oases and mountains, and there are ultra-modern malls and small souk-like stores to cater for their every (tax-free) shopping need.

### CONGRESS STREAMS:

#### A > New trends in science, practice and education

*Focuses on new technologies, digitalisation of health care, robotics, individualisation of therapy, the provision of education via virtual classrooms, integrating science and practice in teaching, communication, people-centred care, and ethical challenges.*

#### B > New roles, opportunities and responsibilities

Examines pharmacists' roles and the roles of individuals, looks at new services and the skills required to advance them, and highlights the importance of education and of collaboration not only with pharmacy colleagues but also with other health-care professionals.

#### C > Health now! Responding to the challenges of today

Recognises that challenges can be faced by looking at new research, ethical considerations, new values, access to health, health systems, sustainability, environmental sustainability, non-communicable diseases, empowerment of patients, empowerment of women, quality and assessment.

#### D > Targeting special interests

Looks at special interests in the different fields of pharmacy and pharmaceutical sciences.
